Reply comments on TCPA Rulemaking 02-278

I agree with and adopt the comments of Robert Biggerstaff and the National Association of Attorneys General. I disagree with the industry comments.

One article that appeared since the original comment deadline was in the Jan. 4, 2003

edition of the Washington Post, page E1, by Caroline E. Mayer. The article was titled

"Cooling on the Cold Calling?" The FCC should read this article to see the problem with

'upselling' that is occurring and will increase dramatically with the implementation of a national do not call list. Thank you.
